*Dear Josh,
Thank you very much for
your help. As usual,
your intervention is
a determining factor!
Ciao*

Ciao

Dear Doctor Garfield,

Many thanks for your kind letter concerning coverage of Plant Science Letters in C.C. I am sorry that the journal has been causing you so much inconvenience especially since I feel that I am in part responsible. For almost one year I have been harassing the Elsevier people in order to get coverage of P.S.L. in C.C..

I am trying now to convince the Elsevier people to expedite the matter. Your letter has been most useful since it gave me a somewhat clearer picture of the situation. Often from Amsterdam I get contradictory reports and, at times, accounts that, at least in my opinion, appear to be incoherent. Perhaps by dealing directly with you and with the Elsevier people it will be possible to solve the problem to everybody's satisfaction.

I shall keep you informed of any further development. Many thanks for your courtesy and your kind interest.

Best personal regards.

Yours sincerely,

Prof. Orio Ciferri

OC/mgr
